

## Sponsorship Packages – ENYGF 2015

---

### Event description

The **European Nuclear Young Generation Forum 2015** is an event organised by the French Nuclear Energy Society Young Generation Network (**SFEN JG**) as part of the European Nuclear Society Young Generation Network (**ENSYGN**). The event is held once every two years and brings together between 400 and 500 young professionals and students from across Europe, the USA, Japan, China and more.

The event is composed of 3 days of conferences, a day of technical tours and a day of cultural tours. The conference section will be made up of: 3 plenary sessions dedicated to “**Nuclear and Environment**” and 3 afternoons of workshops, technical presentations, panel sessions and poster session.

In December 2015, Paris will host the next UN conference on climate change (COP 21) and therefore the ENS YGN and the organisation team are striving to make our event exceptional. The ENYGF 2015 will be the opportunity for the entire young generation of the nuclear industry to showcase the advantages of the nuclear sector regarding climate issues. Moreover in 2015, ENYGF will be the major international event for the nuclear industry in Europe.
